Overview

Projects Abroad is proud to be partnering with GEMS to provide exciting opportunities to students in the summer of 2024. Students ages 16-18 can join us on two incredible chaperoned programs. Here is a summary of the two options:

Option 1: Kenya

Dates: **7th- 13th July 2024** Price: **\$2,345**

Kenya offers the chance for volunteers to live in the wilderness of a conservancy while learning about the Maasai people who live there. In this program, students will contribute to the preservation and well-being of the area and ensure the survival of precious wildlife species. Here are just some of the tasks students can expect to do during their placement:

- ▶ Research endangered species, such as the Rothschild giraffe
- ▶ Set up camera traps and study animal behaviour
- ▶ Remove invasive plant species

Join our Conservation Program in Kenya:
[Click here to find out more and to sign up!](#) Secure your place on the program by making an initial deposit of \$295
 Deadline to apply: **30th April 2024**

Option 2: Nepal

Dates: **7th- 13th July 2024** Price: **\$1,885**

Nepal offers breathtaking views and a welcoming community. Students will explore the colourful, ancient city of Kathmandu. In this program, students will be working with disadvantaged schools and care centres in Nepal. During their trip, students will:

- ▶ Gain practical childcare experience whilst exploring a different country
- ▶ Help children with early childhood development by teaching through play
- ▶ Take part in community work with building projects

Join our Childcare and Community Program in Nepal:

 Deadline to apply: **30th April 2024**

About Projects Abroad

Who We Are

We are Projects Abroad – global leaders in responsible travel for over 30 years. During this time, we’ve helped over 130,000 volunteers and students broaden their horizons through immersive experiences abroad. We believe there’s a better way to travel, one that’s both authentic and sustainable. Members of our Projects Abroad team can be found all over the world, but our head office is based in the UK.

We specialise in impact-driven trips for students in Africa, Asia, The South Pacific, and Latin America & The Caribbean. These trips focus on experiential education, incorporating a combination of volunteering and adventure. Students will be inspired, empowered, and challenged.

What We Do

Why Choose Us?

24/7 support from experienced, reliable staff, fully risk-assessed programs, and accreditation from leading bodies including the Expedition Providers Association, the Learning Outside the Classroom Quality Badge, and British Standard 8848.

Option 1: Kenya Conservation

1 Week

Dates: **7th - 13th July 2024** Price: **\$2,345**

Join our Conservation Program in Kenya:

[Click here to find out more and to sign up!](#)

Secure your place on the program by making an initial deposit of \$295

Deadline to apply: **30th April 2024**

Highlights

- ▶ Track lions and research giraffes
- ▶ Spot animals, such as hippos and buffalo
- ▶ Build facilities, including eco-stoves
- ▶ Develop personal and employability skills
- ▶ Explore incredible national parks

Accommodation

Shared dormitories

Transport

Private bus, safari vehicle, and foot

Responsible Travel

We offset 100% of carbon emissions associated with your in-destination transport. We're committed to being fully climate-positive by 2024!

By travelling with us, you're making a positive contribution to the economies of communities around the world and supporting local jobs.

Overview

Help to preserve the conservancy and ensure the survival of precious wildlife species with this fascinating project. Students will develop a variety of skills from communication to problem-solving, all while helping expert conservationists around the conservancy. By contributing to research to maintenance work, students' efforts will continue contributing to the park and its wildlife long after they have gone home. During evenings and weekends, the group will also take part in social and cultural activities, as well as explore some of Kenya's most amazing tourist attractions.

Day 1

Sunday

Arrival & Induction

Arrival

Students will be met by our staff at the airport in UAE. Students along with our staff board the plane with anticipation, knowing that they're heading into an exciting new world. They touch down in Nairobi, Kenya's lively capital. After passing through border control, they are greeted by our local staff wearing Projects Abroad t-shirts. The students are then taken to a shuttle bus, which will carry them to the Soysambu Conservancy in around three hours.

The First Day

Living in a conservancy is a different experience from staying in a town or city. Students are given an induction to help them settle in. They're shown around the area, giving them a sense of the amenities that are available. During this time, they can pick up a local SIM card and get some cash for the coming days. There is also a cultural awareness course to help students bond with local people.

Day 2

Monday

Introduction to the Program

Planning for the Week

Students will collaborate with local conservation experts to decide what the priorities are for the coming days.

With guidance from our staff, students cultivate their time management skills by creating a schedule for the week, along with a list of goals they want to achieve.

Spotting Animals

Students spot different animal species and learn about the environmental challenges to their existence. With the help of local experts, they use their critical thinking skills and knowledge to come up with realistic solutions. Already, they feel the excitement for the chance to help African wildlife.

Evening Fun

After a busy first day, students have time to relax, meet local people, and enjoy a lesson in East African dance. With joy and laughter, they move to the enchanting drum beat. It's during this time that students develop their social skills, communication, confidence, and cultural understanding. As night falls across the conservancy, students drift off to sleep to the wild soundtrack of nocturnal creatures.

Days 3-5

Tuesday, Wednesday, Thursday

Conservation Work

The main role of GEMS students throughout the week is to maintain the conservancy for the benefit of its inhabitants. The week is filled with activities that allow students to improve or develop a range of skills. Students get involved in maintaining waterholes, removing alien plants, collecting data by observing wildlife, monitoring camera trap footage, surveying giraffes, tracking lions, and mapping GPS signals. They strengthen their teamwork skills and enjoy the confidence that comes with getting their hands dirty, completing both manual and cognitive tasks.

Cultural Events

Evenings are spent building up the communication, collaboration, and social skills of students. Volunteers engage in various cultural activities, including a basic Swahili lesson and local cooking lessons. This is a chance for students to form valuable friendships.

Day 6

Friday

National Park Visits

Fun at the Lake

After completing work on Friday morning, the group is taken to explore beyond the Soysambu Conservancy. They head to nearby Lake Nakuru and marvel at its serene, shimmering beauty. Students will enjoy the wide ecological diversity and varied habitats of and surrounding Lake Nakuru. This makes it an idea place to take a picturesque hike or go bird watching.

One Last Night

There's one last chance for the group to bond with each other and the local people. They enjoy their final delicious Kenyan dinner and go to bed bursting with pride for the work they've completed.

Day 7

Saturday

Leave Kenya

Saying Goodbye

It's been an unforgettable week for all involved and now it's time to say goodbye. Volunteers pack their bags and thank the local staff for the experience. During the three-hour drive back to the airport, volunteers have a chance to read back through their reflective diaries. Having kept track of all they've achieved, it's easy to see the amazing impact they've had. The world's greatest animals remain safe, the community-run conservancy remains open, and local people have what they need to thrive.

Final Thoughts

The flight home is a chance to reflect on the week with pride. Beyond the good work students have done for wildlife in Kenya, they've also built skills and gained confidence in their abilities. We wish them the best of luck for the future and hope this trip inspires them to do great things!

Employability Skills

Students will encounter many learning opportunities during their stay in Kenya. These will help them to practice transferable skills which will be beneficial in both their personal and professional lives. Here are some of the key skills students can develop throughout their Projects Abroad journey:

- 01 **Critical Thinking** - identifying the best ways to conserve the wildlife in the conservancy.
- 02 **Creativity** - Engaging in the creative culture of the Maasai people, such as dancing.
- 03 **Collaboration** - Working together with locals and students from other schools.
- 04 **Communication** - Students will learn speak with local people and overcome language barriers.
- 05 **Information Literacy** - Conducting wildlife surveys and making sense of the data.
- 06 **Media Literacy** - Engaging with Kenya media sources and viewing the world from a new perspective.
- 07 **Technology Literacy** - Trawling through camera trap footage and mapping GPS systems.
- 08 **Flexibility** - Adapting to the Kenyan way of life.
- 09 **Leadership** - Taking charge of daily tasks and motivating the team.
- 10 **Initiative** - Deciding on the best way to complete conservation tasks.
- 11 **Productivity** - Making the most impact with less than a week to do it.
- 12 **Social Skills** - Bonding with fellow volunteers and local people.

Kenya Fact Sheet

From the chaos of inner-city Nairobi to the sweeping tranquillity of its national parks, Kenya has a diverse and wonderful culture. There's no better place on the planet to see the world's most amazing animals. A proud and forward-looking democracy, Kenya is in touch with its ancient origins. Visitors to the country have an opportunity to learn about the Maasai people who live there.

Fun Facts

- ▶ Africa's second-highest mountain is Mount Kenya
- ▶ 68 different languages are spoken in Kenya
- ▶ Kenya is home to over 50 nature reserves and national parks
- ▶ Kenya has strong laws protecting animals from hunting

Destination Information

National Language: Swahili, English
Population: 54 million

Currency: Kenyan Shilling

Time Zone: GMT +3

Capital: Nairobi

Calling Code: +254

Dominant Religions: Christianity, Islam

National Dish: Nyama choma

National Animal: Lion

National Bird: Lilac-breasted roller

Kenya Fact Sheet

Wildlife

From the chaos of inner-city Nairobi to the sweeping tranquillity of its national parks, Kenya has a diverse and wonderful culture. There's no better place on the planet to see the world's most amazing animals. A proud and forward-looking democracy, Kenya is in touch with its ancient origins. Visitors to the country have an opportunity to learn about the Maasai people who live there.

Culture

Kenya is an incredibly diverse country, home to over 120 tribes. Each one has its own customs and traditions. On our Conservation Projects, volunteers interact with the Maasai people, who are well-known for their bright dress and distinctive jumping dances. Bonding in spite of cultural differences requires developing strong awareness and communication skills.

Food

Food is important in Kenyan culture and visitors will be warmly welcomed with some local cuisine. The national dish is nyama choma, a succulent and flavoursome grilled goat meat. A staple of the national diet is ugali, which is made of ground white corn. Historical ties to India mean visitors can also find exceptional Indian food in Kenya, including biryani and pilau.

Community

Community is at the heart of Kenyan life - a fact that visitors to the country quickly find out. Traditional dress is a way of signalling which community you belong to. Religion is an important part of modern community life, with more than 85% of the population identifying as Christian and a further 11% following Islam. Doing community work on a program is a great way to explore these cultures and help them continue to thrive.

How to Apply

If you're interested in our Conservation Program in Kenya, [Click here to find out more and to sign up!](#)
We will need a **\$295** deposit to confirm your booking.

Option 2: Nepal childcare & Community

1 Week

Dates: **7th- 13th July 2024** Price: **\$1,885**

Join us on our program in Nepal:

Responsible Travel

We offset 100% of carbon emissions associated with your in-destination transport. We're committed to being fully climate-positive by 2024!

By travelling with us, you're making a positive contribution to the economy of communities around the world, supporting local jobs.

Overview

Surrounded by the Himalayas, volunteering in Nepal is a spectacular experience. Students will come together to help improve local communities through renovation work, and supporting staff in local schools.

Nepal is one of the least developed countries in the world, with vulnerable communities suffering from poverty, hunger, and low education levels. Consequently, care centers and schools are understaffed and lack the funds for things such as playgrounds and educational resources. These are important for early childhood development.

With the help of students, we can work on bridging the educational gap for Nepali children and build their skills so they can take more opportunities in the future.

Beyond the program itself, students can look forward to exploring the special cities of Kathmandu and the stunning countryside that surrounds it.

Day 1

Sunday

Arrival & Induction

Arrival

The student group boards a plane to Kathmandu with a Projects Abroad Chaperon. As the plane speeds towards the airport, students marvel at the mountains as they whizz past the windows. With over a million people, the noise and energy of Kathmandu will be immediately apparent. But set in a valley surrounded by the Himalayas, it's also a city of peace and tranquility.

As they walk through the airport, they find a Projects Abroad staff member waiting for them. The staff member is easy to spot because they're by the airport exit holding a sign. The group is then taken to their accommodation.

Induction Day

After settling into the accommodation, students are given an induction to the city. During this time, volunteers can exchange or withdraw cash as well as get a local sim card if needed. They're given cultural awareness training and told the plans for the week.

Day 2

Monday

**Placement Tour
& Lesson Planning**

School Induction

Today, students will be taken for a tour of their placement school. Here, they will meet the staff they will be working with and be shown the facilities. This is a chance for the group to ask any questions and understand more about what they will be doing during their stay.

Planning Ahead

The work begins now as students come together to plan the week ahead. In groups, they come up with creative lesson plans to engage young children. During this time, students can also think of creative ideas for the much-needed renovation work in the school. Nepal experienced an earthquake in 2015, meaning that many classrooms are newly rebuilt and still need some work.

Evening Fun

Monday evening is a chance to interact with the community and build social skills. Students join in with a cooking lesson. This creates more than just a delicious dinner, but also an insight into the Nepali way of life. Throughout the week, these leisure activities help students gain cultural awareness, build relationships that cross borders, and nurture skills that will help them find employment in the modern world.

Days 3-5

**Tuesday, Wednesday,
Thursday**

**Childcare &
Community Work**

Teaching Time

Students get stuck in as they enter the classroom. At first, they create resources that will help them implement the lessons they planned on Monday and spend time getting to know the children.

As the week progresses, they become more hands-on and begin teaching through such activities as reading, songs, games and sports events.

Renovation Work

Outside of lesson time, students are involved in improving classrooms. This means painting the walls with bright & colourful educational murals. It may also include building desks or playground equipment so that children are able to get the most out of their education.

Leisure Time

Non-program activities revolve around building cultural awareness, whether through dancing, yoga, or Nepali language lessons. Beyond this, volunteers can relax with quiz nights and scavenger hunts, designed to engage their critical thinking.

Day 6

Friday

Sightseeing in the City & Beyond

Explore Kathmandu

Students may have fallen in love with their placement school, but it's also important to explore the community more widely. Local guides take students on a tour of the city, visiting incredible historic and spiritual sites like Darbar Square and the Garden of Dreams. There is also time to visit the foothills of the Himalayas that surround Kathmandu.

Here, students experience a scenic hike, giving them a chance to breathe and reflect on their time in Nepal.

One Last Night

Returning home, it's time for a small celebration to make some final memories before their journey home.

Students enjoy one final meal at a traditional restaurant before heading to bed.

Day 7

Saturday

Leave Nepal

Goodbye and Good Luck!

The students have now concluded their amazing journey in Nepal. It will be one they will never forget!

They've developed a deep connection with the community here and made a lasting, positive impact on the local children and placement school.

The classroom resources and renovations the students have worked on during their trip will be appreciated for years to come. The children will always remember the time and attention they gave to them.

As students leave Nepal, they know they are always welcome back! We look forward to hearing what amazing things they all go on to do next.

Final Thoughts

The trip may be over, but the journey doesn't end here. In their reflective journals, students have a clear record of all they've achieved and are better prepared for the challenges that lie ahead. Now, it's up to them to continue building on their new skills picked up in Nepal.

Employability Skills

Our Nepal Childcare & Community Program is aimed at helping students build their employability. Students will be given the chance to develop the **twelve 21st Century skills**:

- 01 **Critical Thinking** - Identifying problem areas in the childcare system and devising solutions
- 02 **Creativity** - Painting murals to make classrooms more pleasant.
- 03 **Collaboration** - Working with school teachers and other volunteers.
- 04 **Communication** - Forming meaningful relationships with people who speak different languages.
- 05 **Information Literacy** - Staying informed on the local culture and education system.
- 06 **Media Literacy** - Reading Nepali media to get a sense of how this different culture views the world.
- 07 **Technology Literacy** - Using the internet to research the destination and local customs
- 08 **Flexibility** - Adapting to the Nepal way of life.
- 09 **Leadership** - Planning lessons and being a leader to the local children.
- 10 **Initiative** - Responding to the reactions of children and adapting lesson plans accordingly.
- 11 **Productivity** - Using a limited time period to make the biggest impact on local children
- 12 **Social skills** - Bonding with fellow volunteers, children, and local staff members.

Nepal Fact Sheet

There really is no place like Nepal, home to the world's highest mountains and a spiritual way of life. In these spectacular surroundings, students will find hospitable local people living in harmony with nature. A trip to Nepal will be a chance to learn from this unique and relatively isolated mountain culture.

Fun Facts

- ▶ The Nepali word for Everest translates to 'Forehead of the Sky'
- ▶ In March 2014, Nepal had gone a year without a single endangered animal being poached
- ▶ No country has a denser collection of World Heritage sites than Nepal
- ▶ Nepal is thought to be the Buddha's birthplace

Destination Information

National Language: Nepali, Maithili	Dominant Religions: Hinduism, Buddhism
Population: 29 million	National Dish: Gundruk
Currency: Nepalese Rupee	National Animal: Cow
Time Zone: GMT +5:45	National Bird: Himalayan Monal
Capital: Kathmandu	
Calling Code: +977	

Nepal Fact Sheet

Wildlife

Beyond the still-unconfirmed yeti, Nepal is home to some amazing animals. There are one-horned rhinos, Bengal tigers, snow leopards, and red pandas. Many of these are endangered, but the country has taken strong action to prevent hunting. Cows, considered sacred, are already protected from slaughter and this privilege has been widened to include more animals.

Culture

Nepal's diverse culture stems from both tribal and religious traditions. There are at least 125 different ethnic groups and castes. Over 80% of the country follows Hinduism, meaning they're likely to observe certain traditions, including vegetarianism and meditation. Visitors will also encounter Buddhism and the customs that come with this way of life.

Food

The food in Nepal will have similarities to other South Asian countries but has its own distinct identity. Visitors should try gundruk, a fermented leafy green vegetable. It's hard to find beef in Nepal, but meat-eaters can enjoy yak, goat, and sheep. The vegetarian options are bursting with flavour, including dishes like potato curry and dumplings, served with rice.

Community

Nepal's ancient society used a caste system, which divided people by ethnic grouping. This no longer officially exists, but its effects remain in today's society. Local people identify strongly with their religion, which often commits them to be peace-driven, hospitable, and community-oriented. Visitors will be welcomed into local communities where group flourishing is valued above individualism.

How to Apply

If you're interested in our Childcare and Community Program in Nepal. **[Click here to find out more and to sign up!](#)**

We will need a **\$295** deposit to confirm your booking.

Learning Outcomes

The main aim of our Service Learning Trips is to provide opportunities for personal development, discovery and challenge. Through safe, professionally organised experiences; students acquire key life skills that will assist them in their future careers whether it is further education, training or employment.

Experiential Education

"A pedagogical process by which educators engage students through a cycle of direct experience, reflection, analysis, and experimentation. Experiential education values personal connection to deep and applied learning and inspires growth in both the student and teacher."

-ISEEN Impact Report, 2021

Student Learning Outcomes

Intercultural Competence

Students will be immersed in new cultures, gaining an understanding of their role within our global community and developing cultural awareness.

Leadership Development

Students will be pushed out of their comfort zones. They will build their confidence and resilience through team activities and life experiences.

Healthy Active Living

Students will be encouraged to prioritise their self-care, enhancing their physical and mental well-being.

Empowerment

Students will be empowered to think for themselves, challenging the "status-quo" and cultivating transformative decision-making mindsets.

Global Citizenship

Students will be exposed to new perspectives, engage with real-world challenges and contribute to sustainable development initiatives.

Our Promises

Impact

We're not your average travel company; our core mission is to make positive change. For three decades, we've supported the vulnerable and protected our natural world.

Immersion

Our programs are unlike other trips. Students don't just skim the surface, they are required to engage with real issues, challenging their preconceptions.

Integrity

Our integrity is everything to us. We promise safe, immersive, impact-driven travel and that's what we deliver.

Pricing

Service Learning Program	Duration	Cost
Childcare & Community in Nepal	7 days	\$1,885
Giraffe & Lion Conservation in Kenya	7 days	\$2,345

What's included?

- ▶ Projects Abroad Chaperone from UAE
- ▶ In-destination Transportation
- ▶ Travel & Medical Insurance
- ▶ Projects & Materials
- ▶ Three Meals Each Day
- ▶ Drinking Water
- ▶ Pre-departure & Visa Support
- ▶ 24/7 Support
- ▶ Accommodation
- ▶ Sightseeing & Activities
- ▶ Trip Leader & Medical Advisor

What's not included?

- ▶ Flights
- ▶ Visas
- ▶ Personal Spending Money
- ▶ Travel Vaccines

Additional Information

Food

During their stay, students will be provided with three meals a day. Through food, students can learn more about the local culture and enjoy a variety of traditional meals such as Dal Bhat in Nepal or Ugali in Kenya. We can cater for various dietary requirements, and you'll be able to discuss this with our pre-departure team before the trip starts.

Accommodation

Accommodation is included in the overall program fee and differs between location:

- ▶ Nepal – hotel
- ▶ Kenya - shared dormitories

Travel Arrangements

While the cost of the trip doesn't cover flights or visas, our specialists will be on hand to advise you and walk you through the process. We'll send through information on applying for a visa (where required) and help complete any paperwork.

Flights

Students will be accompanied by a Projects Abroad staff member on their flight. After the application deadline, once all applications have been received, Projects Abroad will be in touch to help make all of the necessary arrangements and book flights.

Supervision

Our Projects Abroad staff are there for students 24 hours a day during the week and over weekends to provide constant support and guidance. They'll make sure students feel comfortable and safe at their placement and accommodation. If students encounter any problems, our staff will be available to help at any time.

Health & Safety

The safety of our participants comes before everything else. Projects Abroad prides itself on taking care of everyone who travels with us.

24/7 Experienced, Reliable Staff

We employ full-time staff in all our destinations and make sure they receive regular training including First Aid.

Risk Management

We have a dedicated Risk Management Team at our Head Office, available 24/7 to respond to any incidents in real time.

Emergency Preparedness

From personal medical emergencies to natural disasters; our trained local staff are prepared for anything and are always on hand to support our participants.

External Assessments

Our safety protocols have been externally checked and have earned accreditation from leading bodies including the Expedition Providers Association, the Learning Outside the Classroom Quality Badge, and British Standard 8848.

Cultural Awareness

We provide thorough pre-departure preparation and cultural awareness training.

Criminal Record Checks & Safeguarding

All our local staff are screened through Criminal Record checks and receive extensive training on how to work with young people.

Accreditations

Our integrity is everything to us. We're entirely dedicated to the delivery of safe and meaningful experiences for our volunteers and addressing the social and environmental issues of today. But you don't have to take our word for it! We've received a multitude of awards and accreditations from third-party verifiers.

4.7

Testimonials

“

'The opportunity to learn about a world very different from their own, in a safe and supportive environment, is the hallmark of a Projects Abroad experience. This company offers a complete experience with impressive attention to detail from start to finish. The professionalism of the Projects Abroad staff, both in the field and at the head offices, is commendable, reliable and totally reassuring to both school administrators and parents as we coordinate these wonderful experiences for our students."

- Judy Ross
Director of External Studies, St.
Mildred Lightbourn School, Canada

“

It has been the best trip I've ever done and I don't say that lightly. The team you have in Kenya are unbelievable. The most friendly, accommodating and hard working group of people I have ever met. I cannot speak highly enough of all of them. A special mention to Tonny at Soysambu Conservancy. An incredible man who made all of us feel safe and did everything he possibly could to make our trip the best ever. Also Carol has been fantastic. She has gone above and beyond to ensure our trip has been incredible at every point.

All of the staff have been fantastic and the trip has been a massive success."

- Ruairi Carr
Teacher from Sutton Park School,
Ireland

“

"Thank you to all of you, many times over! Looking back, it was an amazingly smooth trip - easier than we had any right to expect. I was able to confirm in person the level of training of the Projects Abroad people in the park, and their first aid and rescue qualifications are superlative; one of them has been a firefighter and at least one other had taken the advanced wilderness EMT course in the USA - this is what one would expect of high level search and rescue personnel in North America and certainly put my mind at rest regarding their standards of care in the case of a major problem. In short: it was a truly fantastic trip. I really can't imagine much that we would have changed, and the professionalism of Projects Abroad staff was a huge part of this. It's rare that I have felt so well cared for by the guides on any trip. They were all true experts in their respective fields, and we are in their debt for a superb experience."

- Jean Humphries
Teacher from the Bishop Strachan
Middle School, Canada

“

"Projects Abroad is an embodiment of professionalism and excellent organizational skills. My main goal was to achieve all the CAS learning outcomes by students participating in a range of activities that cover the 3 strands of CAS which is Creativity, Activity and Service. Projects Abroad had activities planned and organized in an excellent time frame which enabled the students to achieve these goals. My students and parents are totally happy with the experiential learning that their children experienced in Krabi."

- Ms Asha Samuel
Canadian International School, India
